Reports

Ms. Abbott presents slight adjustments to the budget relative to staffing and gifted endorsement implications for current teachers. We are looking to other sources for how to pay for supplies, and quotes are still being collected at this time. The team asks questions relative to our needs as a school and if the budget presented tonight covers those needs. Ms. Abbott goes into more detail about what is required for teachers to obtain the Gifted Endorsement. We would need at minimum 1 teacher per grade level to receive this endorsement and one of each partner teacher in our DLI classrooms to be endorsed. Our roll out plan allows us a year to plan for gifted instruction implementation, become endorsed and work out a model for Collaborative Support in classrooms with students who are gifted.
