Reports

Unfinished business

[none]

New business

The team takes part in a session focusing on our 5 strengths. Time is allotted to review our own as well as the strengths of others. Opportunity was provided to chart our strengths as a team and see them as a whole as well as discuss our individual roles on the team. Further discussion takes place as to our overall team strengths and potential needs based on data collected regarding strengths. Additional team members need to complete their surveys so that they can be added to the team charts. We have some further discussion as our meetings progress next school year.
